

INFRACORE®

Providing best-in-class IT services

SECURE. STABLE. SCALABLE.

Enterprise-Grade IT

ENCOURAGING GROWTH

Custom-Tailored IT

Infracore was founded in 2003 by technology experts with the goal of delivering security, efficiency, and capabilities for businesses. Our solutions are comprehensive and built specifically for each client. The unique features of your organization are reflected within every layer of our approach—from hardware infrastructure to actual work processes.

IT Expertise for Any Sector

- ✔ Life Sciences
- ✔ Green Energy
- ✔ Software
- ✔ Property Management
- ✔ Fintech
- ✔ & Many More!

FULL-SERVICE

Solutions for Your Entire Tech Stack

INFRASTRUCTURE MANAGEMENT

From acquiring and disposing of assets to routine maintenance, we'll ensure your infrastructure maximizes collaboration and security.

CLOUD COMPUTING

Mitigate the rising cost of physical infrastructure, enable remote work, and power enhanced collaboration and sharing using powerful public, private, or hybrid cloud approaches.

CYBERSECURITY

We'll install anti-malware, firewalls, and more while continuously monitoring your systems for active threats to mitigate the risk of data breaches and loss.

GOVERNANCE AND COMPLIANCE

Mitigate legal and other risks by having true experts deploy IT across your organization that meets industry or regulatory standards.

SERVICE DESK

Get rapid support for a dysfunctional laptop or a downed network with our IT helpdesk services staffed by a team trained on your specific system.

BUSINESS CONTINUITY

We'll build robust data backup and recovery solutions that allow you to mitigate downtime and get back to work in the event of a cyberattack.

A Different Approach

NO LONG-TERM CONTRACTS

We aim to build long-term relationships without locking our clients in a contract cage. The goal is excellent service that makes cancellation a rarity.

PROVIDER AGNOSTIC

We build systems and provide software or hardware customized for each client's specific needs. We're loyal to you, not a manufacturer or developer.

Benefits Our Clients Can Expect

- ✔ Aligned IT Investments
- ✔ Cost Predictability
- ✔ Fewer Data Breaches
- ✔ Process Efficiency
- ✔ Reduced Downtime
- ✔ Reliable Support

OUR TEAM MAINTAINS KEY CERTIFICATIONS
