

Infracore Automate ICA™ Intune Configuration Assessment

UNLOCK THE FULL POTENTIAL OF MICROSOFT INTUNE

Microsoft Intune is the optimal MDM for most organizations, offering a robust, flexible, and secure platform for managing both Microsoft and mixed-vendor endpoint fleets. To fully leverage Intune’s capabilities and maximize its value, expert configuration assistance is highly recommended, ensuring seamless adoption, optimal performance, and enhanced security.

Infracore’s Assessment of Microsoft Intune provides a comprehensive review of your Intune configuration, designed to ensure your Intune configuration aligns with industry best practices.

BENEFITS AND OUTCOMES

Comprehensive Review

Our Intune Assessment evaluates all key functions against industry standards. This includes Device Enrollment and Management Policies, Application Management Policies, Data Protection Configurations, Compliance Policies, Conditional Access Policies, Security Policies, and Access Controls.

Enhanced Security

Identify potential security gaps in your Intune configuration and receive expert recommendations to strengthen your security posture.

Operational Efficiency

Identify automation opportunities in your onboarding/offboarding processes, reduce IT workload, and cut endpoint support costs while delivering high-quality end user experience.

WHAT'S INCLUDED

Detailed, customized report with actionable recommendations tailored to your Intune setup and overall IT environment.

A walk-through of the report with a certified Microsoft Intune expert, including a dedicated Q&A session to address your specific needs.
